

# AP3000

The AP3000 is a revolutionary air purifier that does so much more than clean the air. Using the same science as Mother Nature, AP3000 destroys odors, eliminates smoke and reduces contaminants ordinary cleaning can leave behind.

## HOW IT WORKS

- Uses a technology based on how nature keeps things safe and clean outdoors. The natural processes found in thunderstorms, sunlight, and lightning are re-created indoors
- Negatively charged ions remove pollutants from the air
- ActivePure® Technology uses light waves and a catalytic process to produce friendly oxidizers that duplicate nature and safely reduce contaminants on surfaces
- ActivePure® is the only Certified Space Technology that continuously protects and purifies the air, and attacks contaminants on all surfaces

## SPECIFICATIONS:

Electrical	100-240 VAC, 50/60 Hz   48 Watts   Negative Ion Generation
Mechanical	40-60 CFM Fan, washable electrostatic lint screen
Weight	10.2 lbs.
Dimensions	8.5" high x 8.5" wide x 11" deep
Coverage	Covers a range of 250 sq. ft. (23 m <sup>2</sup> ) to 3,000 sq. ft. (279 m <sup>2</sup> )** **Depends on variables such as severity and frequency of pollution, humidity and temperature

## BENEFITS

- Reduces airborne contaminants for a healthier environment
- Customizable to your environment, using the included remote control
- Freshens air and removes odors in otherwise stale-prone environments
- Removes dirt and dust from the air to make cleaning easier
- Available in ozone and ozone-free models
- AP3000 is like 24/7 healthy home insurance. It is the total protection package for whole-home environmental conditioning

Before AP3000

After 8 hours with AP3000 technology

Before and after laboratory tests showing reductions of airborne contaminants with the AP3000.

*Based on preliminary test results. Field results may vary. Results do not constitute scientific substantiation.*

2017 Space Technology  
Hall of Fame Inductee

The ActivePure® Technology built into each Air Scrubber by Aerus is based on a variation of the technology originally developed for use on the International Space Station and is recognized as the exclusive Certified Space Technology™ in its category.
